

Global/Bus. Finance and Stock Investing Course

Description

Our Global/Business Finance and Stock Investing Course is being used by individuals and families across the U.S.A. and has NOW received a very strong review from nationally recognized EXPERT curriculum reviewer “Cathy Duffy! She’s very enthusiastic and says this about the course [\(Please click here for her review\)](#)”

- Students completing this course might well find that they have developed a way to produce income for the rest of their lives, so it is well worth the effort required.
- Adults who want to learn about stock market investing should find this one of the most thorough step-by-step processes available, and motivated students as young as age 12 might well be able to master it.
- The addition of the S.I.M.P.L.E. Guidebook and workbook offers an amazing amount of information with appropriate guidance to help students assimilate it and put it into practice.
- Satisfy credit for a one-semester high school economics course.
- While I was enthused about Stasak’s products before, this course fills in the previous gaps for better understanding how to analyze companies.
