Finally! An exciting and dynamic program designed for families and individuals to build a foundation of investment understanding for today and the future – which can bring real results!

Using Stock Market Companion's 15Minute Market Update, families and individuals are successfully learning how the markets work and how to make excellent investment decisions – on their own.

Apply the 15Minute Market Update curriculum program in your family to successfully introduce concepts of global and business finance, and individual stock investing.

Stock Market Companion family subscribers find it focused, insightful, easy to read, engaging, and “concise and complete”.

The Stock Market Companion 15Minute Market Update is a structured curriculum that teaches a system for understanding global finance, business economics, and entrepreneurialism in daily, 15 minute bite-size pieces. It is structured around what is taking place in the markets today as well as historical events that are of importance. Students learn “

- To see the inter-relationships and cause and effect events in global financial markets and individual company stocks that offer opportunities to make money in both short and longer term investments.
- How to understand company earnings and financials.
- The importance of business cycles, and how to time the market to maximize gains and minimize risks.
- Which companies are the right ones to invest in NOW.
- When to take profits or cut losses and when to be in cash!
- When we are putting our own money at Stock Market Companion at work for profit or protection.

With your subscription, you will receive a username and password, which provides immediate access to our valuable “
