Testimonials

School of Business, Investing, and Finance (including “ Stock Market Companion) products have been purchased since late 2009, and we have received exciting testimonials since early 2010. Our “Stock Market Companion” Stock Investing Course has been reviewed and has been given strong “thumbs-up” by nationally known, independent curriculum experts. These curriculum experts have been ensuring that excellent products reach individuals and families since the 1980’s! They are Mrs. Cathy Duffy (CathyDuffyReviews.com) and Dr. Ronald Johnson “ Paradigm Accelerated Curriculum (Pacworks.com).

I don’t want to just give my children fish, I want to teach them how to fish, for a lifetime. The Stock Market Companion has proven over several years of use in my family to be an excellent tool for accomplishing this! Dr. Edward C. “ Vancouver, WA USA

My 13 year old son Elijah has always been a “saver”; putting his birthday money and allowance away with the prospect of purchasing something in the future besides candy. Recently, he has asked me about investing. I wanted to encourage not only his practice of saving, but his interest in investing and growing his savings. However, I was reluctant to delve into it with him because of my poor experiences with my own attempts of investing. Then my wife Maureen brought home a SMC pamphlet she obtained at a home school conference. I called Eric. He returned my call promptly. I was impressed that he took the time to explain SMC and the educational benefits it had for us as a home school family. Eric’s S-I-M-P-L-E stock investing strategy makes total sense. I just watched a short video from Stock Market Companion about Cell Therapeutics, Inc. Eric used the S-I-M-P-L-E strategy to explain the prospect of it being a good future investment, and Elijah and I actually understood it. We are learning together. It’s the education. Thanks Eric.

The Stock Market Companion is a great tool for investors and non-investors alike. Joe M. “ Portland, Oregon USA

Hi Eric “ Besides the expert advice/research/commentary, you have one huge advantage over other services “ your customer service. You are so much more considerate and respectful in your communications than any other teacher I’ve interacted with. I appreciate that greatly, and will/have recommend you to others. Thanks! Joe T. Kansas, Oklahoma USA

Eric Stasak has developed an excellent approach to investment in the stock market, not only as a financially solid arrangement, but as a great way to teach children how to discern market issues and make wise choices. Dr. Ron J. President Paradigm Accelerated Curriculum

Hello Eric, here are some thoughts:.

- The greatest thing is that my kids will have a much better head start on investing than I did at their age.
- When I left home as a young adult I was clueless about the stock market and investing in general. Now, as a homeschooling parent, I want to give my kids the opportunity to learn something about investing and how the market works.
- Since I myself am just learning, it's great to have a knowledgeable and experienced guide and teacher through SMC. Thank you, SMC!

Maria V. " Mexico City, Mexico

Before buying any stock, I would recommend using the tools taught by SMC.
William. S. Vancouver, WA USA

Dear Stock Market Companion " I was curious about stock market investing. SMC has proved to be a great place to learn. My 25 year old son is interested in trying his hand at buy and selling stocks. What I am learning at the SMC is giving me a foundation of knowledge to pass on to him and some fun things to talk about. Following Eric's carefully reasoned, well organized, data-driven decision making processes would be great training for any student considering a career in business or a technical field. I work as a Quality Coordinator for a good sized manufacturing plant. Much of my day is taken analyzing data. Currently I'm involved with several Six Sigma teams and am working on finishing up my Black Belt certification.

Randy M. Bloomington, MN USA

I have been researching stock market investing strategies for several years, both technical and fundamental. Here are my thoughts about Stock Market Companion

- Eric is the best stock picker I have come across so far. And there are not many that provide the level of fundamental and technical analysis that Eric does.
- Using his S.I.M.P.L.E. investment system he is able find stocks with a catalyst to move higher and they often do within days if not minutes of his buy recommendation.

John B. Portland, Oregon USA

On behalf of my family, I commend Mr. Eric Stasak, for the excellence of his work with Stock Market Companion. His professionalism, meticulous attention to detail, and decades of investing experience have given me the greatest confidence in his expertise, but it is the personal success of his family that offers the most outstanding credential.

I have witnessed the Stasak family showcase character, integrity, and benevolent care for others. These admirable virtues are a reflection of the careful training and high standard of excellence modeled by Mr. and Mrs. Stasak towards their children.

Someone once said, *“Excellence is never an accident. It is always the result of a high intention, sincere effort, intelligent direction, skillful execution, and the ability to see obstacles as opportunities.”* Mr. Stasak defines this verse through both wise leadership towards his family, and in the insightful, well-thought advice offered through The Stock Market Companion.

After years of working with traditional financial advisors and investment consultants, I found Mr. Stasak’s approach to teaching through sharing his own strategies to be both refreshing and inspirational.

The Stock Market Companion is a resource to be treasured ~ I look forward to learning and advancing in wise stewardship of what I have been entrusted with.

With much Appreciation,

Ginhee R. Vancouver, WA USA
