

The Stock Market Companion â€™ Stock Investing Course is Designed to be Self-Guided by the Student

Description

The course Teacherâ€™s Guide is designed to be your studentâ€™s roadmap for the course and includes an easy to follow, Week By Week Lesson Guide.

The level of parent or teacher involvement is completely discretionary. Some parents or teachers are interested in the course, but simply donâ€™t have time to study or read the materials. Others maybe arenâ€™t interested.

Some parents or teachers participate with the course along with the student.

Students are successful with this course, working on their own and at their own pace, using the Teacherâ€™s Guide Week By Week Lesson Plan as their guide.

If the studentâ€™s coursework needs to get trimmed back during the term or semester, no problem. Simply start up again in the future where the student left off. Access to the lesson materials does NOT expire.

We encourage our students simply to try to take the course at the pace that we have developed in our Week By Week Lesson Guide. There are however many good reasons why the pace may need to be adjusted. Most important is for the student to enjoy the course and to learn the S.I.M.P.L.E. Stock Investing Method.

Click on any of the course component images below and they will expand to a larger size for easy reading and evaluation.

Free Stock Market Companion – Successful Investing Quiz 1

7. What's a good reason to buy shares in an individual company?

- ☐ The share price is going UP
- ☐ The share price is the lowest it's been in years and has nowhere to go but up.
- ☐ You like the company's products.
- ☒ You have completed a S.I.M.P.L.E. method analysis on the company and your rating for the company and the company's current share price indicates that this is a good time to buy the shares.

Correct

Question 7 Explanation:

Learning to complete a S.I.M.P.L.E. method analysis of a company quickly is an excellent way to consider strategic, individual company investments.
